NDC SUPPORT CLUSTER

NDC SUPPORT CLUSTER

In 2015 the German Federal Environment Ministry (BMUB) established the "NDC Support Cluster" in the framework of its International Climate Initiative (IKI) to support developing countries in a timely and comprehensive manner with the implementation of their (I)NDCs.

Currently eight organizations support 27 partner countries with total funding volume of 32 million euros. The programme is an important part of BMUB's contribution to the global NDC Partnership.

NDC SUPPORT CLUSTER

SUPPORT AREAS

- 
- Strengthening capacity in partner governments
 - Building climate expertise
 - Ensuring linkages of NDCs with Long-Term Strategies

Political and Institutional Frameworks

Sector Approaches

- Identification of priority sectors and best practices
- Linking sector priorities, projects and programmes with NDC implementation and review

- Development of NDC-Monitoring Systems
- Building MRV & GHG accounting Systems
- Advancement of emission projections

Data and Transparency

Financing

- Identification of national & international, public & private funding
- Development of investment strategies and measures to support NDC Implementation
