

Food and Agriculture Organization
of the United Nations

FAST Partnership

Fiona Maria Bottigliero
Food and Agriculture Organization of the United Nations (FAO)
Global Climate Action Partnership (GCAP) Workshop, 3 October 2024

What is FAST and why now?

ACCESS TO FINANCE

Enhance country capacities to identify and access climate finance and investment.

KNOWLEDGE AND CAPACITY

Develop analyses and voluntary guidelines, and support capacity development across stakeholders.

POLICY SUPPORT AND DIALOGUE

Ensure agrifood systems are fully embedded and prioritized in climate change policies.

3 Pillars of FAST

For people, for climate, for nature

Structure of FAST Partnership

Task force

is a coordination and facilitation unit, provides operational and administrative support.

FAST Partnership Board

Board

is responsible for strategic orientation and oversight of activities, provides assistance in securing funding.

Co-chairs

represent past, current and incoming COP Presidencies.

COP-to-COP collaboration

ABOUT FAST

The Food and Agriculture for Sustainable Transformation (FAST) Partnership is a multi-stakeholder platform established in 2022 that works to strengthen the quantity and quality of climate finance in agrifood systems for the most vulnerable.
