

Electric Vehicles and Charging Infrastructure on Islands: Core Knowledge and Strategies

You are invited to join a virtual training on electric vehicles (EVs) and charging infrastructure covering the benefits and challenges of EVs, relevant policies and standards, strategies for EV charging infrastructure planning and development, and EV battery recycling and end-of-life management. Specific considerations for island contexts will be covered throughout. This virtual training will be hosted on Zoom and there is no cost to participate.

Virtual Training Agenda

- 9:00 – 9:10 am Opening Remarks
- 9:10 – 9:30 am Introduction to EVs and EV Charging Stations
- 9:30 – 9:45 am Benefits and Challenges of Electric Vehicles
- 9:45 – 10:00 am EV Policies and Standards
- 10:00 – 10:30 am Charging Infrastructure Planning and Development
- 10:30 – 10:45 am End-of-Life Management for EVs
- 10:45 – 11:00 am Questions and Discussion

In collaboration with:

**Friday, January 10th
9:00 – 11:00 am
(Fiji Standard Time)**
